## **Show and Tell**

**Jim Morrison brought in three of his wonderful segmented vases. Some of the woods used were Maple, Walnut, and spaulted Pear.**

Jim also had a very nice "inside-out" vase from Oak.

He showed us a 62" jack handle he had turned using a tailstock extension on his lathe.

Dave Jones was back and showed us the only item he has turned since his operation; a Hackberry vase.

He also brought in a small vase he had turned earlier.

Ron Jones brought in a couple nice boxes turned from Maple and from Mahogany

Warnie Lore had a really nice bowl from spaulted Beech that he described as wormy, holey, and rotten; it still looked good!

Warnie also brought in a couple of attractive Box Elder Christmas tree ornaments

Phil Selman showed us a really amazing Oak lidded box with Walnut wings or handles.

U.K. Dawson came in too late for Show & Tell, but brought in a nice bowl

and a lidded box.

**Bill McKay** brought in three very nice bowls he had turned from Locust, Apple, and Maple.

**Ervin Jones** showed us an attractive spaulted Maple bowl he had turned. He also had a nice bowl from Bradford Pear.

Unfortunately my notes and photo numbers were all confused, so I am not sure what belongs to whom. I will present some more pictures which perhaps can be sorted out at a later date.

## Program

Byron Young introduced "Turners Challenge 2007" – Multi-piece Vessel.

The Rules are:

1. May or may not have a lid.
2. Base must consist of at least two turned pieces (not to be confused with segmented turning).
3. No limit to number of pieces.
4. Any type of wood (may be combinations of different woods).
5. Apply finish of choice.
6. If the vessel is lidded, the lid should also have at least two pieces.

Judging will be at the February 10, 2007 meeting.

Byron then gave a demonstration of a typical vessel that would qualify for the Challenge.

He also passed out a packet of some plans and designs as examples.
