

# Woodturners Mountaineer

A chapter of the American Association of Woodturners

July 2013

## July at the Arts & Crafts Fair

Mountaineer Woodturners showed their stuff to the public at the Cedar Lakes Arts & Crafts Fair over the 4th of July Holidays. This included a number of finished pieces for sale as well as demonstrations on woodturning and tips to interested spectators. President John Sheets expresses his thanks to all who worked at the club's tents during the fair, and especially Tom who volunteered to store all the shelves until next year and to Byron who stored them last year, hauled them to and from the fair this year, and brought an extra lathe for demonstrating, etc.

Tom Schottle is applying his teaching skills as he helps another participant in the "make and take" area of our complex.

**John Sheets has a couple of interested spectators as he turns a natural edge bowl. Fred and Bill, just a couple of our hard-working "salesmen", are in the background.**

**In this one, Byron Young awes yet another fairgoer with one of the approximately 975 tops he turned and gave away during the three days.**

**Don't forget the August meeting of the Mountaineer Woodturners will be held on the 17th at Shelter #4 in Cedar Lakes. Bring a covered dish to eat and show up about 11:00. Bring your Show and Tell and be ready to mingle.**

**Check your calendars for the October 12th meeting. Kurt Hertzog, current VP of the AAW Board of Directors and a professional woodturner, will be demonstrating ornaments, surface decoration and the use of routers on the lathe. He hails from Henrietta, New York, so let's give him a warm reception.**
