

# *Mountaineer Woodturners*

A chapter of the American Association of Woodturners

September 2014

## **Business**

President John Sheets called the September meeting of the Mountaineer Woodturners to order at 10:00 on Saturday, September 13, 2014. We had a somewhat small but enthusiastic turnout for the auction. Colonel Gregor managed to squeeze \$250 out of the club members which is a nice addition to the club treasury.

We were pleased to have three new faces at this meeting...Bill Wilson from Parkersburg and the father-son team of Kelvin and Scott Greathouse from Ripley.

## **Show and Tell**

These three bowls are from Harry Newman. Two are from red malee burl and one is from burl. Harry has begun incorporating feet into some of his pieces. The finish is wipe on poly.

large scale platters, this one from cherry. It features the added carved feet which Tom does so well.

John Gregor made a cherry bowl and a cherry tray with "large-scale piercing". John used a hole saw to begin the negative space areas and then refined them to make them look more random.

Jim Morrison brought two impeccably crafted segmented bowls. One is primarily purpleheart with ebony and holly accents. The other is made from a product called Spectra, a material that is already laminated and colored.

Byron Young showed one of his

beautifully  
milk painted  
Americana  
poplar bowls.  
He also  
brought a  
"don't do this"  
of his own.  
Looks like  
you should  
always check  
the thickness  
prior to the  
final  
decorative  
texturing?
